

IT'S TIME FOR TIBET

With the world's eyes on China ahead of the Beijing Olympics, there has never been a more important time to be standing up for human rights and democratic freedoms in Tibet.

In March, a wave of demonstrations erupted across Tibetan areas, with Tibetans giving vent to fifty years of frustration at harsh and unrealistic Chinese policies. China responded with a brutal crackdown, leaving over 200 dead, 1,000 injured and 4,000 in detention. A global outpouring of public and political support for Tibet followed. Our own Prime Minister has joined other world leaders in urging the Chinese leadership to work constructively with the Dalai Lama towards a peaceful resolution.

In early May the Chinese Government agreed to resume dialogue with envoys of the Dalai Lama. However, six previous rounds of dialogue have brought no substantive results. The Australia Tibet Council is determined to help bolster the dialogue and ensure a positive outcome.
